

ORNITHOLOGY

Project title: Movements and Survival of Bald Eagles Produced in YNP

Principal investigator: Dr. Alan Harmata

Phone: 406-586-3747

Email: ubijt@montana.edu

Address: Ecology Department

Montana State University

Bozeman, MT 59717-0346

Additional investigator(s): Dr. George Montopoli, Peter Harmata

Objective: To determine long-term movements and survival of bald eagles banded as nestlings in YNP.

Findings: See (Harmata et al. 1999. Movements and survival of bald eagles banded in the Greater Yellowstone Ecosystem. *Journal of Wildlife Management* 63(3):781-793).
